

# Get More Out of Your Fertilizer and More Nutrients Out of Your Soil

University & field trials have shown improved yields by combining side-dress or lay-by fertilizers with NutriLife®

## Benefits:

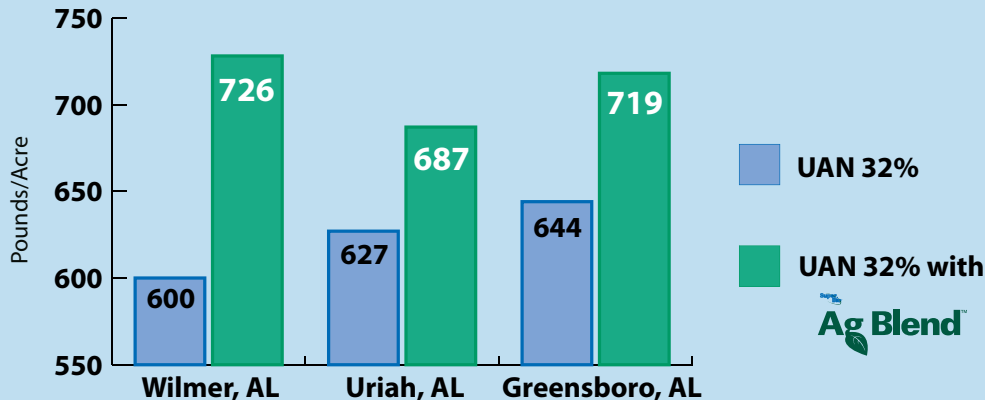

- Improves Nutrient Uptake
- Enhances Crop Quality
- Increases Yields

### 2005 Lint Yield Study – Dr. Dan Krieg, Texas Tech (retired)

Fertilizer combined with AgBlend outyielded fertilizer alone and still returned a profit to the grower.

### 2003 Alabama UAP Field Trials – Cotton Lint Yield

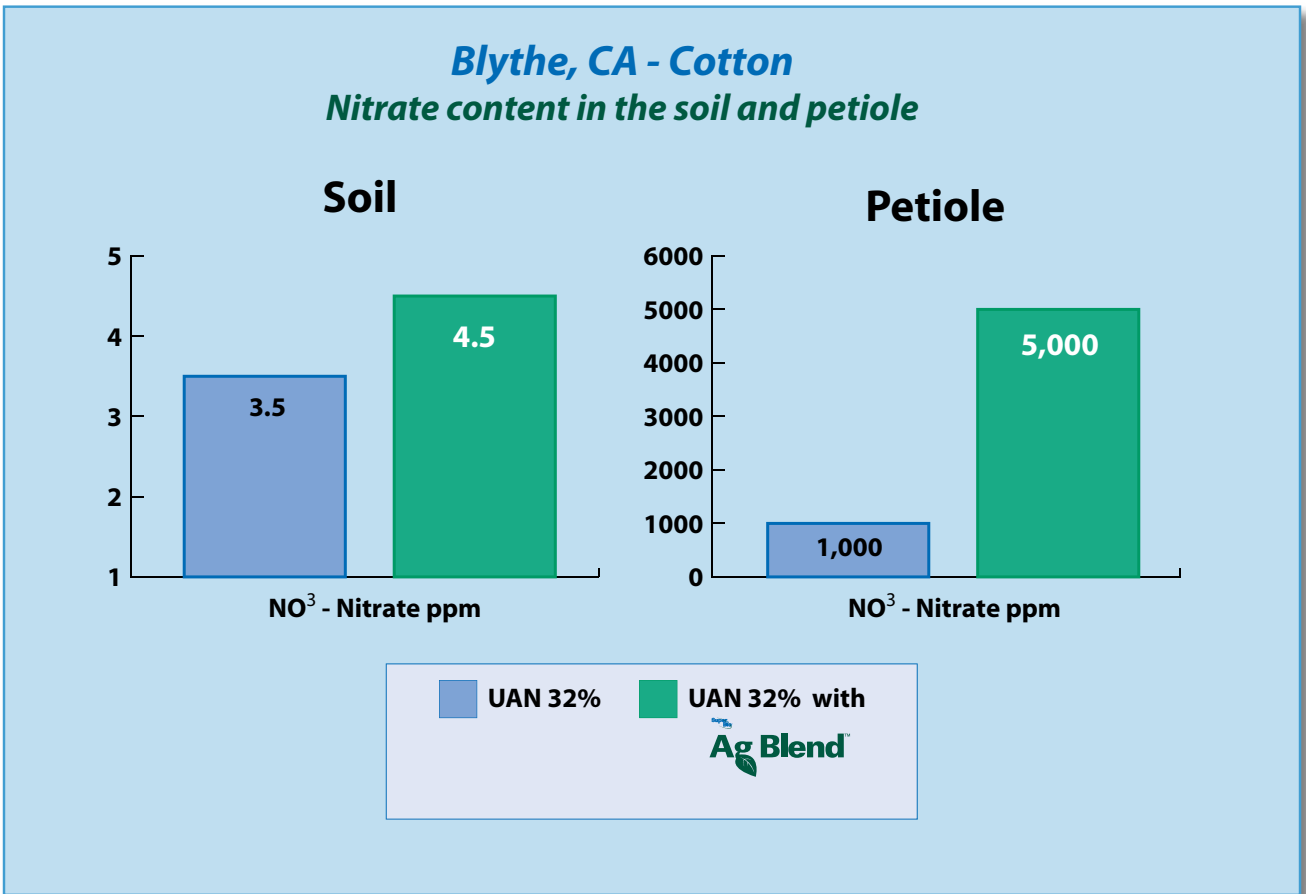

\*25-5-0-3 applied as a side-dress at 10 gal/acre

\*\*25-5-0-3 applied as a side-dress at 10 gal/acre with 2 qts/acre of AgBlend. Original test performed using SuperBio® AgBlend™; reformulated as NutriLife for ease of blending.

**Greater Nitrate Uptake Means Greater Impact on the Cotton Plant — Improving Plant Quality and Yield.**

**Contact your AMS representative for technical support and details**

\*1 gallon applied water run - early June.
